# The Next Hundred Years

It starts  
At a time called birth  
And continues  
Till a time called death  
It is called Life  
It comes with no guarantees  
"Of 100 years or 100 thousand miles  
whichever comes first."  
And somehow  
They've even left the instructions out  
Yes, all we get  
Is Life itself  
And it's up to us  
To do the Living

“What about the future of Stetson? One thing is certain — our trustees and faculty must be able and willing to adjust to the unknown changes that will surely face the university in the decades ahead. But I hope that some things about Stetson will not change during the next one hundred years. I hope that Stetson can still remain a small, distinctly Christian, community of devout scholars, including a group of carefully selected students and teachers still searching for truth — *Pro Deo et Veritate* — and doing this without any interference by any governmental or ecclesiastical authority.”

The month of October was highlighted by the activities of Greenfeather. These included the Fund-run, "Mr. Beauty," the Rock-a-thon, the Pool Tournament, the

Greenfeather Follies, and the Olympics. The week culminated on Friday evening with the tremendously successful Greenfeather Carnival, due to the plan-

ning and hard work of the organizations and the planning committees.

The "Mr. Beauty" Contest gave us a sample of the "better" life. We saw demonstrations of rare talent and exquisite beauty.

We saw young men do things that they would not ordinarily do all for the sake of charity. All of the contestants deserve congrats!!

During the month of November the intramural competition centered around outdoor sports with both men and women participating.

This annual event was held at the base of Hulley Tower. Each person was given a candle to hold while the lights were extinguished. As part of the service,

the chimes of Hulley Tower were sounded and the Stetson University Brass Choir performed Christmas Carols at the foot of the library doors.

The weekend got underway

on Friday morning as members from the graduating classes from as far back as 1918 registered for the events and activities.

All of the organizations and special groups contributed to the fun. On Friday night the

Stetson University Jazz Ensemble presented "Jazz at the Philharmonic" and the Stover Theatre Production "The Robber Bridegroom" proved to be a favorite of all age groups.

### Challenged By The Future

The next century here at Stetson knows no bounds in athletic competition. We have already seen the addition of three varsity sports—men's volleyball, cross country, and wrestling. The Hatter tradition will be enhanced as the emphasis on physical fitness and the caliber of competition grows. Stetson's athletes tip their hats to the challenges awaiting them in the future.

They Had The Will

Sparked by the play of upper classmen, Maria Albano, Dana Baldwin and Mo Sullivan the Volleyball team had its best season ever. The ladies improved substantially over last year. The Hatters had depth on the team with addition of freshman standout Kim Vach and returning setter Mary Hadfield.

The Lady Hats had a record of 20 wins and 16 losses. This was their first winning season. They took "the big step" when they beat USF. Their will gave them a win over Tampa University, who were ranked 16th in the nation at the time. Coach Schumaker is very excited about next year's squad.

### Getting Into The Swing Of Things

Under the guidance of Coach Robert Weikel, the Hatters had another exciting season. Returning player Brad Parsons, was a member of the All-State Team last year. He was one of the outstanding players on this year's team. There are two seniors on the team, Dave Sullivan and Kevin Lawrence. Coach Weikel feels Lawrence added depth to this year's squad. The future looks promising for the Hatter Golf team.

### New Coach New Approach

The Stetson University soccer team completed their season 4-11-1 with head coach Mike Parsons positive about their ability to compete in NCAA Division I men's soccer. Seniors Rick Harris, leading scorer the past three years, and Bob Spooner, Defensive Player of the Year in '81 and '82, served as Co-captains for the Hatter team. Seven starters joined the 15 returning players.

"We're still in an adjustment period of contending in a Division I program," commented coach Parsons. "Next year we're looking to upgrade the schedule with an increased number of games against strong Division I teams."

The booters finished the season with strong wins over outstate rivals Armstrong State, the Citadel, and instate challengers F.I.T. — Jensen Beach. The Hatters proved their ability shooting goal for goal with 2 overtimes against the University of Miami.

High hopes and new faces dominated this year's Lady Hatter basketball squad. Coach Kelly Jordan had four freshmen in the starting line up this year. She had a starting line up to go against big teams and one for quick teams. The sole senior on the team, Leslie Clutts, has taken over the center position.

Outstanding players for this year's squad were Dallas Boychuck, the leading scorer, Beatrice Hawthorne, and Tracy Young.

# CHEERLEADERS

Go Hatters,  
Goooooooooooo

This year's cheerleaders continued to raise the fan's spirits. Both men and women combined forces to form spectacular stacks and hearty cheers. Each varsity basketball team had its own squad of cheerleaders. Each squad worked hard to make their teams proud. They are often overlooked, but our cheerleaders add that certain flair to each home game.

## WOMEN'S TENNIS

### You've Got To Love Those Ladies

Not enough people know how well our ladies tennis team did last year. They had such a successful season that they qualified for the NCAA Division II national tournament. Qualifying for nationals is a long tradition for the Lady Hatters.

Coach Vicky Pate hopes to continue that trend. This year's squad has been boosted with the addition of four strong newcomers. The team still will be anchored by number one player, Sharon Swanbery.

With a winning tradition like theirs, how can you help but love those Lady Hatters!

## MEN'S TENNIS

### The Men in White Set Their Sights

1984 brought some new faces to the men's tennis team. Coach Ray Hussey has his work cut out for him this year. Playing NCAA Division I opponents does not make winning an easy task. But each member of this year's squad has set his sights on a successful season.

Although there is a good mix of old and new talent, there is still the reliable Jeff Burnett. The rest of the team consists of Brad Lehan, Jim Skalko, Pete Nylen, Tom Overvold, Chud Dollison, Mike Van Dusen, Farris Briggs, and the injured Mike Manderson.

# WRESTLING

## Grappling Mats For Winning Hats

It started as a dream. Then the Stetson University Wrestling Club became the only Division I collegiate wrestling team in Florida. The team is coached by Pete Starson, a former wrestler himself. The assistant coach is John Houser.

Stetson's wrestling team is made up of some of the finest wrestlers in the state. The grapplers' first year will find them competing against top Division I schools throughout the state.

Along with this outstanding group of athletes and their fine coaches, the Hatter grapplers are aided by their wrestlerettes. All these people are expecting a winning season and successful future as Stetson's new varsity sport.

## MEN'S VOLLEYBALL

A New Team . . .  
A New Dream

This marks the second year for the men's volleyball team. Last year Stetson asked the men on campus if they wanted to play volleyball. Another team was needed to fulfill NCAA requirements. Nobody expected much but what we got was a winning season.

The 1984 season brings with it a dream of improving last year's record. Returning players are Rich King, Billy Hartman, John Dunn, Eddie Augustine, basketball standout Glynn Myrick, and last year's MVP Bobby Knuutilla. Eddie Jenkins (basketball) will be joining the squad for the first time.

Coach Elizabeth Schumaker is proud of her team and is enthusiastic about the coming years. These men have provided Stetson with another exciting sport. We all wish them continued success.

## WOMEN'S SOFTBALL

### There's No Disputing Our Recruiting

A "new look" will be showcased on the Stetson softball diamond this year as seven newcomers dominate the roster. Freshman Debbie Clark, Cheryl Conklin, and Kim Vach along with junior transfer Deirdre Williams should make their presence known immediately. Two Brown's and a "Bell" round out the Hatter first year players — sophomore Connie Brown and freshman Lori Brown and Janiece Holder, a freshman out of Bell, Florida, will be expected to contribute heavily to the Stetson cause.

The returning players will certainly not be overshadowed by the crop of newcomers. Senior pitcher Christie Conner, a two-time MVP selection, and senior first baseman Cathy Beebe, the 1983 Coaches Award recipient, will be looked to for their defensive expertise, both proved to be consistently solid last year finishing with .917 and .976 fielding percentages. Also, back will be senior speedster Maria Albano, sophomore outfielder Diane O'Connor and the Hatters long ball threat, sophomore Mary Wilbanks.

## MEN'S CROSS COUNTRY

### Sprinting To The Finish

The 1983 Cross Country Team was the second year for the Hatters since beginning the new sport in the fall of 1982. Without any seniors on the team, the Hatters looked to improve through the season and gain valuable experience for the 1984 season.

The Hatters were competitive against many of the schools on their tough schedule. Running invitational meets most of the time gave the Stetson runners a chance to face the best runners in Florida. Mike Makens was voted most valuable runner for the Hatters. Felix Mogatusi ran consistently second for the Hatters. Jim Buckley ran injured for most of the season, but started to regain his old form. The Hatters look for continued improvement and success in the future.

## BASEBALL

### A Winning Tradition

Almost everyone in the state of Florida knows about the truly winning tradition of the Stetson Hatter baseball team. They have had more than a decade of consecutive winning seasons. Coach Pete Dunn, an ex-hatter himself, recruits from the best junior colleges in Florida. The coaching, Rick Hall and Terry Tolbert, also seek out some of the finest high school baseball players in the country. That is why Stetson has recently been ranked as one of the twenty best teams in the nation.

This year's squad will be anchored by its senior captains, left fielder Jon Pequignot and catcher/DH Alex Lucco. Both captains have been with the program for four years and have contributed greatly to its success.

Outstanding pitchers this year will be Mike Ullian, Ray Surdyk, Bart Bishop, and Tom Sutte. The remaining pitching staff, the freshmen and new recruits will add to the strength of this team.

### Batgirls

The batgirls have been a part of the baseball program for many years now. They not only add a touch of class but also provide a useful function (not to mention a pretty sight). They all work hard and are greatly appreciated by the team.

### Greek, and Loving It!

"The real intellectual life of a body of undergraduates, if there be any, manifests itself, not in the classrooms, but in what they do and talk of and set before themselves as their favorite objects between classes . . . If you wish to create a college, therefore, and are wise, you will seek to create a life . . . a college is not only a body of studies but a mode of association." Woodrow Wilson

## Classes

On Monday, the 5th of November 1883, De Land Academy opened with 13 students in attendance. We have come a long way since then: Stetson University began its 101st Year with 2,795 students in all divisions on all of its campuses. These students come from all over the United States and from 22 foreign countries. We are looking forward to another century of growth.

# CLASSES

STETSON

THE NEXT HUNDRED YEARS  
— 1984 HATTER —

## Seniors of the 101st Year

As the members of the senior class of 1984 came to Stetson University in the fall of 1979, they were probably not fully aware of the place they were to hold in the history of Florida's oldest institution of higher learning — the first graduating class of Stetson's second century.

As they moved into the residential halls, raced to orientation events, and suffered through their first registration, few could anticipate the pomp and circumstance that was to surround the Centennial Convocation, Founder's Day, and graduation.

In 1979, the members of the class of 1984 were freshmen. The graduating seniors of Stetson University's 101st year were more concerned with such things as Eh 101: Communications than with their place in history.

Eh 101: Communications — frequently referred to as "freshman anguish" — certainly seemed more urgent than the apparently distant future. Only a few months earlier, the new faces on Stetson's campus had been the kings and queens on their respective high school campuses. They had been the brightest and the best — the proven scholars, the starting athletes, the student leaders, the gifted musicians, the talented artists. They had enjoyed the applause which had celebrated their achievements.

In September 1979, they were just freshmen again. Used to earning "A's" and "B's" in everything — especially English — they were required to take a course in reading, writing, thinking, and language use. Eh 101 hardly foreshadowed the celebration that was to commemorate the beginnings of the University's second century and the graduation of the second century's first senior class.

For many that fall, Eh 101 represented a disturbing introduction to higher education. The new classmates represented stiffer competition than those back home. Being able to read and write did not insure superiority over others in the class. Professors declined to accept at face value any idea without substantial and vivid supporting evidence. Grammar, punctuation and spelling errors elicited gigantic reductions in grades. Daily classes, assignments for the sake of busy work, instruction at a snail's pace, and remedial review sessions had been replaced by classes two or three times a week, major essays due every week, independent study, and midterms and finals. Essays demonstrating the knowledge, the talents, the creativity, and the hard work that had been rewarded with high grades and glowing praise just months earlier now were earning "C's" or lower.

Ah, how things change so quickly! To have to take a required course in reading, writing, thinking, and language use was bad enough, but to receive commonplace grades in it was so unbecoming yesterday's stars.

But the freshmen-to-be-1984-seniors learned. They wore out the grammar handbooks and the dictionaries; they planned, wrote, revised, and revised again and again those essays; they scheduled their time; they balanced their personal needs and the academic requirements. The D and F slips of that first grade inventory were soon ancient bad memories as the form and content of their essays developed into college-level quality. They learned to take chances; they learned to challenge themselves, their classmates, and their professors with ideas that would not have occurred to them just a few months ago.

True, few would be tapped into Phi Beta Kappa on the basis of their Eh 101 grade. In fact, some would spend several semesters overcoming the damage that the entire first semester's grades had done to their overall grade point average.

But, the Eh 101 experience became a prototype for the next four years: first, starting over; then, learning the basics; and finally, extending the challenge. The members of the class of 1984 became sophomores and then juniors and finally seniors as they fulfilled requirements and moved into their respective majors. They also became student leaders, starting athletes, publication editors, head residents, and citizens. The lessons in reading, writing, thinking — as well as humility — served them well as the maturing students worked towards the day when they would be applauded as members of the first class to graduate in Stetson University's second century. They could enjoy starring roles in the festivities surrounding the centennial celebrations.

Now it is 1984. Thoughts turn to a well-earned graduation, to possible careers, to future families, and to community service. But the class of 1984 — the graduating seniors in Stetson University's 101st year — recall well one of the primary lessons learned in Eh 101 — tomorrow always a freshman. As Stetson University begins its second hundred years unwilling to rest upon its hallowed tradition and reputation, the graduates of the University's 101st year know they must begin again by starting over, by learning anew, and by taking on fresh challenges.

## Our Strategy

In May 1983, the Board of Trustees committed Stetson University to a long-range strategy. The strategy includes this goal:

- to strengthen Stetson's position as a nationally recognized private university.
- by providing demanding academic and leadership programs for highly qualified students.
- by providing encouragement and support to faculty based on the criteria of teaching excellence, scholarship, University service, and student advisement.
- to the preservation of a size which nurtures a caring environment.

The faculty and administration are committed to the ideas contained in this quotation:

"It is not enough to teach a man a specialty. Through it he may become a kind of useful machine but not a harmoniously developed personality. It is essential that the student acquire an understanding of and a lively feeling for values. He must acquire a vivid sense of the beautiful and of the morally good. Otherwise he — with his specialized knowledge — more closely resembles a well-trained dog than a harmoniously developed person. He must learn to understand the motives of human beings, their illusions, and their sufferings in order to acquire a proper relationship to individual fellowmen and the community.

These precious things are conveyed to the younger generation through personal contact with those who teach, not — at least in the main — through textbooks. It is this that primarily constitutes and preserves culture."

# President

Pope A. Duncan

“Willing to Risk”

In his convocation address, President Duncan describes the mindset we are to take on as Stetson enters its next one hundred years:

“Our planning must not be timid. It is true that any goals which are worthy involve risks. Only those willing are able to lead! It has been said that ours is an age which wants security and not risks . . . Stetson has been a leader in the past, and we intend to lead in the future even with the risks which that entails . . . Our new strategy truly sets the stage for our response to the challenge in that it says we will move from the strength of the past and present into the future. It says that we will attack the future aggressively, even with risks.”

STETSON UNIVERSITY  
DELAND, FLORIDA 32720

OFFICE OF THE PRESIDENT

October 11, 1983

Dear Students and Colleagues:

There is an unusual chemistry which operates upon all of us who have anything to do with Stetson. It operates to bind together the disparate elements which we represent together. The national motto, e pluribus unum, is especially applicable at Stetson.

It is because of this remarkable unity which emerges among students, faculty, staff, and alumni that Stetson has been able to achieve a great first century. It is the same spirit which will make the second century an even greater one.

I believe an annual can have an important role in preserving this sense of loyalty and oneness as we keep it to remind us of the people and events that marked our one hundred and first year.

Sincerely yours,

*Pope A. Duncan*

# Provost

Denton R. Coker

“A Caring Community”

“Because of the nature of our institution - a caring community - we can do things for our students that others cannot. This is not to say we're better, but we are different.” For this reason, Provost Denton Coker finds it exciting to be at Stetson.

Dr. Coker's ongoing concern is to secure the best faculty and academic leaders possible for this institution. He adds, “This is, will be, always should be my concern.” Moreover, he is concerned with bringing the best students to Stetson. Between these two groups, the Provost sees a rapport and believes Stetson's environment fosters such a relationship. These relationships, he believes, are invaluable in developing values for living in today's world. “We want to grow,” he says, “but not too fast; we mustn't hinder these person-to-person relationships.”

## Douglas Lee

“A National Reputation”

“The decision has been made to compete,” says Dr. Doug Lee, Vice President of Planning and Development. “The University will strive to attain a national reputation for academic excellence. The funding for such competition is crucial to its success.” Dr. Lee expects that the goal set five years ago of raising \$50 million dollars will be reached this year. In the next one hundred years, the University’s endowment is projected to be one billion dollars. Convinced of Stetson’s potential and the appeal of its distinctive size and attitude, Dr. Lee is confident and enthusiastic about our next one hundred years.

## Robert S. Chauvin Dean

After serving the College of Liberal Arts and Sciences as Dean for several years, Dr. Robert S. Chauvin is stepping down from that position. He intends to stay on as a professor at Stetson. Dean Chauvin says the following regarding his position:

"The major components of a University, I believe, are faculty, students, library and laboratory facilities. It is the role of the administration to bring these together and to establish a climate where they may function effectively and efficiently in the universal search for truth.

A dean, as the executive head of the college or school, has the primary responsibility for establishing and maintaining this climate for learning. He is the liaison between the President and the Board of Trustees and the departments within his college. I have sought to fill this role, and at the same time allow each department and professor some sovereignty and room for development.

The College of Liberal Arts has recruited and appointed outstanding professors over the years. They will maintain the high standard of excellence for which this college is and will continue to be widely known. Stetson University has been a part of my life and I consider myself fortunate to have had a minor role in its history."

YOUR EDITOR INTERVIEWS SOMEWHAT RETIRING DEAN DAVID NYLEN OF THE SCHOOL OF BUSINESS ADMINISTRATION

Editor: I hear you're stepping down as dean after this year.

Dean: Yes, madam, that is true.

Editor Tulka: Do you think you'll be able to earn a living?

Dean Nylen: I thought I'd go straight and become a teacher.

Ms. Tulka: Sounds like a cop out. Tell me, what have been the high points as dean?

Dr. Nylen: Well, the chalkboards in Davis Hall, I guess.

Josie: That's a high?

Dave: Yeah! We changed them from white to green. I want credit for that.

Josie: Is that it?

Dave: Well, there was some other stuff too, but I can't claim credit for it. We had 900 students majoring in business this year. That's a record. And we have attracted some really outstanding new faculty members with strong credentials and impressive experience. At the same time, we have tried to maintain our emphasis on quality teaching.

Josie: What else?

Dave: We've made a lot of changes in the curriculum to keep it up to date. We have added coursework in computer systems, in ethics and social responsibility, and in behavior within organizations. And we have done a lot to give students more field experiences. For example, we now have internships, the George Investments Program that lets students invest real money, and the Small Business Institute that gives students the opportunity to apply their learning by counseling small businesses. We've done a lot to upgrade our graduate programs, too.

Josie: As far as I can tell, all you have done is to make things harder.

Dave: That's great news! Tell me more.

Josie: You have no heart.

Dave: That qualifies me to teach.

Josie: Any regrets about stepping down?

Dave: Oh, sure! I'll miss all those high level meetings. And the paperwork — I'll really miss the paperwork.

Josie: Is there anything you regret that you didn't accomplish as dean?

Dave: Well, yes. I had hoped to learn to ride my moped with greater dignity — in a more dean-ly way, if you will. Never worked it out.

# From The Editor . . .

I don't even know if I can express the feeling I have — it's one of sheer excitement that the last page of this yearbook is finally completed . . . it's one of sincere gratitude towards everyone who stood by me while making the deadlines . . . it's one of love and thankfulness for all of the wonderful memories I have of Stetson . . . it's one of happiness to know that sleep is just around the corner . . . and it's one of sadness that my years here are almost gone.

Capturing the memories and creating this book wasn't an easy job, but I want to give many thanks to everyone that helped. To my Section Editors: Kimberly, Dana, Maria, Josie, Brad, Angela, and Tambre — without you there would be no book. Your hard work and devotion were much appreciated. Words cannot express my gratitude to two special individuals: Betsy and Ben; without these two, there would be no photographs.

I could not have completed this book if it were not for the unending encouragement from Jayne and Missy. I cannot leave out a group of girls that were there for me through the good times as well as the bad. The Sisters of Pi Beta Phi are wonderful and will always be loved for their constant love, support, and understanding. A special thanks to my roommate — you're super!

To those Seniors who will be graduating this May — GOOD LUCK!! To those who aren't — I'll see you in the Fall.

There is one last thought I'd like to leave with you:

Live for today,  
Learn from yesterday,  
Look forward to tomorrow.

Good Luck and love to all,

Julie Korfage  
Editor  
1984 Hatter

P.S. Mom and Dad, this book  
is for you!!
